Vista Gold Corp. Announces Second Quarter 2015 Results and Provides Update on Recent Activities

DENVER, Aug. 3, 2015 /[PRNewswire](#)/ -- Vista Gold Corp. (the "Company," "we" or "our") (NYSE MKT and TSX: VGZ) today announced its unaudited financial results and highlights for the second quarter ended June 30, 2015. Management's quarterly conference call to discuss these results is scheduled for 2:30 p.m. MDT on August 4, 2015. The Company's unaudited financial statements, Management's Discussion and Analysis together with other important disclosures can be found in the Company's Quarterly Report on Form 10-Q, filed with the U.S. Securities and Exchange Commission and the Canadian securities regulatory authorities.

Summary of Second Quarter 2015 Financial Results

We reported net income of \$3.6 million or \$0.04 per share for the three months ended June 30, 2015. This includes a \$5.9 million payment received from the Australian Government under a research and development incentive program ("R&D Tax Incentive") for costs incurred in the 2012 fiscal year; and an unrealized \$0.3 million mark-to-market loss on our investment in Midas Gold Corp. ("Midas"). During the three months ended June 30, 2014, we reported a net loss of \$2.9 million, or \$0.04 per share inclusive of an unrealized \$0.6 million mark-to-market loss on our investment in Midas. During the period, total operating expenses of \$2.0 million were 15% lower than total operating expenses for the same period in 2014.

Our working capital at June 30, 2015 totaled approximately \$14.9 million, including cash and short-term investments (comprised of U.S. Treasury Bills) of approximately \$12.6 million. The Company has no debt.

As disclosed in our July 27, 2015 press release, subsequent to the period end, we received an additional approximately \$4.3 million R&D Tax Incentive refund, net of costs. This refund is related to qualifying costs we incurred in the 2013 fiscal year. After giving effect to this refund, our June 30, 2015 pro forma cash and short-term

investments would increase to \$16.9 million.

Frederick H. Earnest, President and Chief Executive Officer, commented, "We were pleased with the addition of approximately \$10.2 million of cash to our treasury from the R&D Tax Incentive Program. Based on our current plan of operations, we believe that we are now funded into 2018; and we still have opportunities to access additional financing from non-dilutive sources such as the sale of our used mill equipment and monetization of other non-core assets. We believe we have addressed our liquidity needs and positioned the Company to continue to evaluate and execute programs that could better position the Mt Todd gold project for fast-track development when economic conditions permit. With our improved treasury position and strong management team we believe we are in a position to judiciously evaluate and pursue other near-term value creating opportunities."
